Description:

At Australian Catholic University (ACU) we pride ourselves on offering a welcoming environment for everyone. At the same time, we are a university committed to standing for something clear. We are the university for people who look beneath the surface and are stronger than external expectations and superficial measures of success. We stand up for people in need and causes that matter. We've grown rapidly over the past few years, and now have seven campuses around Australia, and a campus in Rome, Italy. We have more than 33,000 students from over 100 countries and more than 2,300 highly qualified and dedicated staff. The world is our campus. We're at the Centre of a vibrant global network of scholars, partnerships and opportunities - and we've got relationships with almost 200 partner institutions around the world. We're closely integrated into our communities and industries, working with them to answer the big questions, and to create tangible results. Our research programs tackle enduring and pressing issues in society, in Australia, and around the world.

Project Undertaken in AON India Services Pvt. Ltd.

- ➢ Integration of Gecko driver in the framework to run script on latest Firefox browser.
- ➢ Integration of Selenium 3.0 library in the existing framework

Description:

 A Health Care Exchange is a marketplace that connects insurance companies with individuals or employees wishing to purchase insurance. The more volume the Exchange brings, the more competitive prices can be offered from insurers. And in every consumer market, competition reduces prices. A Corporate Exchange takes the Exchange concept, which will become operational in each State in 2014, into the private sector. It is targeted to serve companies with more than 100 employees, who will not be able to participate in State, Federal, or small business Exchanges under health care, reform provisions.
